Hi Cynthia,

I will work with marketing on the link, and get this additional info to the concessions and Rail Ranger folks.

Thanks,

Beverly Burton

Subject: Upper Animas Mining District webpage

Hi, Beverly.

When we met with you last March, we discussed our plans for developing a webpage for those who have questions about the EPA's work in the Upper Animas Mining District. We have now gone "live" with the webpage, and I wanted to send you the link -
<http://www2.epa.gov/region8/upper-animas-mining-district>. I believe you mentioned at the meeting that you might be able to put a link our webpage from the railroad's website.

I have also attached a revised Upper Animas Fact Sheet that includes the webpage address for your use.

Thanks again for helping us educate your passengers about the Animas River!

Best regards,

Cynthia

Cynthia Peterson
